

High Duster LT with DustMore™ Covers Usage Guide

Designed to clean hard-to-reach areas in first impression environments

1. Don appropriate PPE according to your facility's SOPs.

2. Locate the Sleeve Opening

Find the opening at the base of the DustMore™ cover.

The open end is designed to slide easily onto the dusting head.

3. Attach the Dusting Cover

Slide the DustMore cover fully over the dusting end of the tool.

Make sure it is secure and evenly distributed for optimal contact during cleaning.

4. Adjust the Dusting Head

Press the adjustment button at the base of the dusting head to pivot.

Set the dusting head to the angle best suited for your task.

5. Dust with Control

Clean surfaces such as vents, overhead lights, or cabinet tops using smooth, consistent motions.

Replace the sleeve once the dust load is high or the task is complete.

6. Remove and Dispose Properly

Pinch the retention arms at the base of the dusting head, then pull the cover off from the far end.
