

ContecClean® Cloths

Economical disposable wipes in convenient sizes

ContecClean® Cloth is a true microfiber wipe—engineered from 100% synthetic fibers to deliver high-performance cleaning in critical environments. As a disposable microfiber solution, it offers all the debris-lifting power and surface contact benefits of traditional microfiber, without the contamination risks involved with relaundering. Each wipe consistently delivers disinfectant to surfaces without quat binding, making it ideal for use with a broad range of chemistries. Designed for single-use, ContecClean Cloth helps reduce cross-contamination and supports compliance by ensuring a fresh, effective wipe every time.

Cleaning Customized

By being a Contec® customer, you will have access to your wipes manufacturer right here in the United States. This means you can rest assured that your product won't have to travel far to get to your facility. Additionally, our dedicated sales team will partner with you as we work together to develop solutions for your cleaning problems.
